Sir:

Prior to examination, please amend the above-identified application as follows.

IN THE CLAIMS

Rewrite claim 13 as follows:

13. (Amended) The apparatus for charged particle beam exposure according to claim 9,

wherein said exposure dose data is converted into a binary number, and connection is made between output of the binary number, each digit thereof having a weight at a power of 2, and a plurality of said charged particle beam sources in said matrix state, each having a weight in a ratio of a power of 2, such that the weights of each digit of the output and each said charged particle beam source coincide with each other.
